1. Acceptance of These Terms

By accessing or using www.Jollybyte-Studios.com, www.womdock.com, or any other website operated by Jollybyte Studios™, downloading or installing Womdock™ or other software or applications made available by Jollybyte Studios™, purchasing or obtaining a license, accessing documentation or digital materials, or otherwise using a Jollybyte Studios™ service (collectively, the “Services”), you agree to these Terms of Service (“Terms”).

2. About Jollybyte Studios™

Jollybyte Studios™ is a trade name registered in the State of Oklahoma and was established in 2025. Jollybyte Studios™ operates www.Jollybyte-Studios.com and may publish software, applications, downloads, documentation, digital materials, and related services under the Jollybyte Studios™ brand. References to “Jollybyte Studios™,” “we,” “us,” or “our” mean the operator of the applicable Service. References to “you” or “your” mean the person or entity accessing or using the Services.

Womdock™ is a Jollybyte Studios™ software product and product identity. Jollybyte Studios™ operates www.womdock.com as the official Womdock™ website. References to the Services include Womdock™ where applicable.

3. Eligibility and Authority

You may use the Services only if you can lawfully enter into a binding agreement and are not prohibited from receiving the Services under applicable law. If you are under the age of majority where you live, you may use the Services only with the involvement and authorization of a parent or legal guardian when legally permitted. The Services are not directed to children under 13. You may not knowingly use the Services to collect personal information from children in violation of applicable law.

4. Changes to the Services and These Terms

We may modify, improve, replace, suspend, discontinue, or limit all or part of the Services at any time, subject to applicable law and any separate contractual commitments. Features, compatibility, availability, and technical requirements may change as software and infrastructure evolve. We may update these Terms from time to time. The revised Terms will be posted through www.Jollybyte-Studios.com or another appropriate legal notice location with an updated effective or revision date. Changes become effective when posted unless a later date is stated. Continued use

after the effective date of revised Terms constitutes acceptance to the extent permitted by law.

5. Limited License to Use Jollybyte Studios™ Software and Materials

Subject to these Terms and any applicable license or purchase terms, Jollybyte Studios™ grants you a limited, non-exclusive, non-transferable, non-sublicensable, revocable right to access and use the Services and associated documentation for their intended lawful purpose. Unless expressly authorized in writing or permitted by mandatory law, you may not copy, reproduce, distribute, sell, rent, lease, sublicense, publicly display, publicly perform, modify, translate, create derivative works from, or commercially exploit Jollybyte Studios™ software, source code, object code, websites, designs, documentation, or digital materials except as reasonably necessary for authorized use. Any rights not expressly granted are reserved by Jollybyte Studios™ and its licensors.

6. Intellectual Property and Brand Rights

The Services and their contents, including software, code, workflows, user-interface designs, visual systems, documentation, text, graphics, logos, icons, animations, media, databases, compilation, and other original materials, are owned by or licensed to Jollybyte Studios™ and are protected by copyright, trademark, trade secret, and other intellectual-property laws. Jollybyte Studios™, associated logos, and other names, marks, product identities, and trade dress used by us may be trademarks or protected branding. You may not use them in a manner that falsely suggests sponsorship, endorsement, affiliation, or ownership without prior written permission. Nothing in these Terms transfers ownership of Jollybyte Studios™ intellectual property to you.

Womdock™, the Womdock™ name, associated logos, product identity, interface designs, visual systems, documentation, software, code, workflows, and other original Womdock™ materials are owned by or claimed by Jollybyte Studios™ and may be protected by copyright, trademark, trade secret, and other intellectual-property laws.

7. Reverse Engineering, Circumvention, and Technical Restrictions

Except where a restriction is prohibited by applicable law, you may not reverse engineer, decompile, disassemble, decode, derive source code from, circumvent technological protections of, or attempt to discover non-public algorithms, security mechanisms, protocols, or implementation details of Jollybyte Studios™ software or Services.

You may not bypass, disable, defeat, or interfere with licensing, activation, rate limiting, access controls, integrity checks, security features, or other technical restrictions. You also may not use the Services to test security without our prior written authorization. Interoperability, security research, or other activities that cannot lawfully be restricted remain subject to applicable statutory conditions and should be conducted in a manner that minimizes harm and unauthorized access.

8. User Content and Responsibility for Your Work

You may provide, import, create, process, transmit, store, or export content through certain Services (“User Content”). As between you and Jollybyte Studios™, you retain whatever ownership rights you lawfully hold in your User Content. These Terms do not transfer ownership of your User Content to Jollybyte Studios™ merely because you use our software or Services. You are responsible for ensuring that you have the rights, permissions, licenses, and lawful basis necessary to use, process, reproduce, modify, transmit, publish, or distribute your User Content. You are also responsible for reviewing outputs, metadata, licenses, permissions, and legal obligations before commercial or public use. You must not use the Services to create, process, store, or distribute content that violates law, infringes another person’s rights, facilitates fraud or abuse, or violates our Acceptable Use Policy.

9. Local Processing and User-Connected Services

Womdock™ and other Jollybyte Studios™ software may perform supported functions locally on your device. Other functions may require or permit you to connect third-party services, providers, storage systems, APIs, applications, or accounts that you control (“User-Connected Services”).

10. Credentials and Account Security

If a Service permits you to store or use credentials, API keys, access tokens, activation information, or other authentication material, you are responsible for keeping those credentials confidential and for activity performed using them. Do not share credentials in public materials or with unauthorized persons. Notify the relevant provider and Jollybyte Studios™

where appropriate if you believe credentials associated with a Jollybyte Studios™ workflow have been compromised. We may restrict access where reasonably necessary to protect the Services, users, systems, or legal rights.

11. Purchases, Licenses, Subscriptions, and Third-Party Payment Processing

If Jollybyte Studios™ offers paid software, licenses, subscriptions, digital goods, or other purchases, the price, billing cadence, included rights, taxes, renewal terms, refund terms, and other transaction-specific conditions will be disclosed at checkout or in applicable purchase terms. Payment may be processed by third-party payment providers. Jollybyte Studios™ may receive transaction status, customer contact details, and limited billing-related information necessary to administer a purchase, but payment processors may independently collect and process financial information under their own terms. A purchase grants only the rights stated in the applicable license or offering. Purchasing software does not transfer ownership of Jollybyte Studios™ source code, trademarks, designs, or other proprietary materials.

12. Updates, Compatibility, and Technical Requirements

Software may receive updates, patches, compatibility changes, or security improvements. Some updates may be necessary to maintain security, compatibility, licensing, or continued access to particular features. You are responsible for maintaining compatible hardware, operating systems, browsers, network access, third-party software, codecs, drivers, and external services where required. We do not guarantee perpetual compatibility with every device, operating-system version, third-party API, or provider.

13. Beta, Preview, Experimental, and Pre-Release Features

We may make beta, preview, experimental, test, or pre-release features available. These features may be incomplete, unstable, changed without notice, or discontinued. They may have different data, performance, compatibility, or reliability characteristics than generally released features. Unless we expressly state otherwise, pre-release features are provided for evaluation and testing and should not be relied upon for critical production, archival, safety-sensitive, or legally regulated workflows.

14. Feedback

If you voluntarily submit suggestions, ideas, feature requests, comments, or other feedback about Jollybyte Studios™ or the Services, you grant us a worldwide, perpetual, irrevocable, royalty-free right to use, reproduce, modify, develop from, and incorporate that feedback without restriction or compensation, provided that this does not transfer ownership of your unrelated User Content.

15. Acceptable Use

You must comply with the Jollybyte Studios™ Acceptable Use Policy, which is incorporated into these Terms by reference. The Acceptable Use Policy addresses security abuse, unlawful activity, malware, unauthorized automation, deceptive conduct, intellectual-property violations, harmful content, and other misuse. We may investigate suspected violations and may suspend, block, restrict, or terminate access when reasonably necessary to protect users, infrastructure, legal rights, or the public, subject to applicable law.

16. Third-Party Content, Links, and Integrations

The Services may reference, link to, display, or interoperate with third-party websites, software, services, libraries, providers, or content. A link or integration does not imply endorsement unless expressly stated. Third-party services are outside our control. You use them at your own risk and subject to their terms. Jollybyte Studios™ is not responsible for third-party content, availability, security, privacy practices, licensing, pricing, or performance.

17. Copyright Complaints

Jollybyte Studios™ respects intellectual-property rights. Copyright complaints concerning material accessible through Services we control should be submitted in accordance with our DMCA & Copyright Policy. Submitting a knowingly false copyright notice or counter-notice may have legal consequences. The DMCA & Copyright Policy does not authorize us to remove material hosted exclusively by independent third parties that we do not control.

18. Privacy

Our Privacy Policy explains how we collect, use, disclose, retain, and protect personal information in connection with www.jollybyte-studios.com, www.womdock.com, Womdock™, and applicable Services. Our Cookie Policy provides additional information about cookies and similar technologies used on our websites.

19. Suspension and Termination

You may stop using the Services at any time. We may suspend or terminate access to a Service, license, account feature, website, download, or network resource if we reasonably believe you have materially violated these Terms, the Acceptable Use Policy, applicable law, or another binding agreement; created a security or legal risk; failed to pay amounts lawfully due; or used the Services in a manner that threatens other users or infrastructure. Where appropriate and legally required, we may provide notice or an opportunity to cure before termination. Immediate restriction may be necessary for security incidents, fraud, unlawful activity, abuse, or urgent legal compliance. Termination does not eliminate obligations or rights that by their nature should survive, including intellectual-property rights, payment obligations, disclaimers, limitations of liability, indemnification, and dispute provisions.

20. Disclaimer of Warranties

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, THE SERVICES ARE PROVIDED “AS IS” AND “AS AVAILABLE.” JOLLYBYTE STUDIOS™ DISCLAIMS ALL WARRANTIES, EXPRESS, IMPLIED, OR STATUTORY, INCLUDING IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE, NON-INFRINGEMENT, QUIET ENJOYMENT, ACCURACY, AND WARRANTIES ARISING FROM COURSE OF DEALING OR USAGE OF TRADE. WE DO NOT WARRANT THAT THE SERVICES WILL BE UNINTERRUPTED, ERROR-FREE, SECURE, COMPATIBLE WITH EVERY SYSTEM, FREE OF HARMFUL COMPONENTS, OR THAT OUTPUTS WILL BE ACCURATE, COMPLETE, LAWFUL, NON-INFRINGEMENT, OR SUITABLE FOR A PARTICULAR PURPOSE. YOU ARE RESPONSIBLE FOR APPROPRIATE BACKUPS, REVIEW, TESTING, AND PROFESSIONAL JUDGMENT. Some jurisdictions do not allow exclusion of certain warranties, so some exclusions may not apply to you.

21. Limitation of Liability

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, JOLLYBYTE STUDIOS™, ITS OWNER(S), AFFILIATES, CONTRIBUTORS, LICENSORS, CONTRACTORS, AND SERVICE PROVIDERS WILL NOT BE LIABLE FOR INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, CONSEQUENTIAL, OR PUNITIVE DAMAGES; LOSS OF PROFITS, REVENUE, GOODWILL, OPPORTUNITY, OR BUSINESS; LOSS OR CORRUPTION OF DATA; BUSINESS INTERRUPTION; COST OF SUBSTITUTE SERVICES; OR DAMAGES ARISING FROM THIRD-PARTY SERVICES, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. TO THE MAXIMUM EXTENT PERMITTED BY LAW, THE AGGREGATE LIABILITY OF JOLLYBYTE STUDIOS™ FOR CLAIMS ARISING OUT OF OR RELATING TO A PAID SERVICE WILL NOT EXCEED THE AMOUNT YOU PAID DIRECTLY TO JOLLYBYTE STUDIOS™ FOR THE SPECIFIC SERVICE GIVING RISE TO THE CLAIM DURING THE TWELVE MONTHS BEFORE THE EVENT GIVING RISE TO LIABILITY. FOR FREE SERVICES, OUR AGGREGATE LIABILITY WILL NOT EXCEED US \$100. The limitations in this section apply to the fullest extent permitted by law and do not limit liability that cannot lawfully be excluded or limited.

22. Indemnification

To the extent permitted by applicable law, you agree to defend, indemnify, and hold harmless Jollybyte Studios™ and its owner(s), affiliates, contractors, and service providers from claims, liabilities, damages, judgments, losses, and reasonable costs (including reasonable attorneys’ fees) arising from your unlawful use of the Services, your User Content, your violation of these Terms or the Acceptable Use Policy, or your infringement or violation of another person’s rights. This obligation does not apply to the extent a claim results from Jollybyte Studios™ own conduct for which indemnification may not lawfully be required.

23. Export Controls, Sanctions, and Legal Compliance

You may not use, export, re-export, transfer, or provide the Services in violation of applicable export-control, sanctions, trade, or other laws. You are responsible for complying with laws applicable to your location, industry, content, and intended use.

24. Governing Law and Venue

These Terms are governed by the laws of the State of Oklahoma, without regard to conflict-of-law principles, except to the extent federal law or another law must apply. Unless applicable law requires otherwise, any legal action or proceeding arising out of or relating to these Terms or the Services must be brought in a court of competent jurisdiction located in the

State of Oklahoma, and you consent to personal jurisdiction and venue there.

25. General Legal Terms

If any provision of these Terms is held unenforceable, the remaining provisions will remain in effect to the fullest extent permitted by law. Failure to enforce a provision is not a waiver. You may not assign these Terms without our prior written consent, except where applicable law provides otherwise; we may assign them in connection with a merger, acquisition, restructuring, sale of assets, or transfer of the applicable business. Neither party is responsible for delay or failure caused by events beyond its reasonable control, except for payment obligations and obligations that cannot lawfully be excused. These Terms, together with policies and additional terms expressly incorporated by reference, constitute the agreement between you and Jollybyte Studios™ concerning the applicable Services and supersede prior or contemporaneous understandings concerning the same subject matter.

26. Electronic Communications

You agree that notices, disclosures, agreements, and other communications may be provided electronically through the website, software, email, or other reasonable electronic means. You are responsible for keeping contact information you provide accurate where a Service requires it.

Jollybyte Studios™ Website, Womdock™, and Services

Effective Date August 30, 2026

Company Website www.Jollybyte-Studios.com

Womdock™ Website www.womdock.com

Legal Contact info@jollybyte.co

This Privacy Policy explains how Jollybyte Studios™ collects, uses, discloses, retains, and protects personal information when you visit our websites, communicate with us, obtain Womdock™ or other software or digital materials, or otherwise interact with services we operate.

Womdock™ is a product of Jollybyte Studios™. This revision expressly includes Womdock™, www.womdock.com, and applicable Womdock™ software and services within this policy where stated.

Contents

Scope • Information We May Collect • Sources • Uses • Legal Bases • Infrastructure and Security • Cookies • Analytics • Disclosures • No Sale • Connected Services • Credentials • Retention • Security • Incident Response • International Processing • Rights • Marketing • Browser Signals • Children • External Links • Changes • Contact

1. Scope and Important Distinctions

This Privacy Policy applies to personal information processed by Jollybyte Studios™ in connection with www.Jollybyte-Studios.com, www.womdock.com, Womdock™, communications, support, purchases, licensing, downloads, and other Services we operate. It does not automatically apply to independent third-party services that you choose to connect to or use with our software.

Womdock™ is designed as a local-first workstation. Content, project files, prompts, credentials, and other working materials processed locally by Womdock™ are not treated as collected by Jollybyte Studios™ merely because the software processes them on your device. Information may leave your device when you direct Womdock™ to use a User-Connected Service, synchronization destination, website feature, support workflow, or other networked function.

2. Personal Information We May Collect

The personal information we collect depends on how you interact with Jollybyte Studios™. We seek to collect information reasonably necessary for the relevant purpose and to avoid unnecessary collection of sensitive data.

Information you provide directly may include your name, email address, company or organization name, support messages, feedback, purchase or licensing details, information you submit through forms, and other content you choose to provide. Website and network data may include IP address, approximate network-derived location, browser type, device or operating-system information, referring or destination pages, timestamps, request headers, security signals, cookie identifiers, and similar technical information generated when you access www.Jollybyte-Studios.com. Transaction information may include order status, product or license information, payment confirmation, billing contact details, transaction identifiers, and related records received from a payment processor. We do not need to receive full payment-card numbers when payment is handled entirely by a third-party processor. Support and diagnostic information may include software version, platform, device characteristics, error information, logs or screenshots you voluntarily provide, and technical details needed to investigate a support request. If we later offer accounts, subscriptions, cloud features, communities, marketplace functionality, or other online services, additional information may be collected as described at the time and this Policy will be updated as appropriate.

When you visit www.womdock.com, website and network data may be processed in the same general categories described for other Jollybyte Studios™ web properties, depending on the infrastructure and features then in use.

3. Sources of Personal Information

We may collect personal information directly from you; automatically from your browser or device when you access our website; from service providers that help operate our website or process transactions; from public sources where lawful; and from third parties you direct to provide information to us. We do not treat information as collected “from you” merely because it exists on your local device and is processed locally by software without being transmitted to Jollybyte Studios™.

4. How We Use Personal Information

We may use personal information to provide, operate, maintain, secure, troubleshoot, and improve our website and Services; respond to support requests and communications; administer purchases, licenses, downloads, subscriptions, or transactions; detect fraud, abuse, spam, attacks, or security incidents; enforce our Terms and policies; maintain business and legal records; comply with law and lawful requests; protect users, Jollybyte Studios™, and third parties; and communicate important service, security, policy, or transaction information. Where permitted by law, we may use aggregated or de-identified information to understand website traffic, performance, reliability, feature usage, and general business trends. We do not attempt to re-identify information that has been properly de-identified except as permitted for testing or security.

5. Legal Bases Where Applicable

Where a law requires us to identify a legal basis for processing, the basis may include performance of a contract or steps you request before entering a contract; our legitimate interests in operating, securing, supporting, and improving our Services; compliance with legal obligations; protection of vital or legal interests; and consent where consent is required. The specific legal basis depends on the processing activity and applicable law.

6. Website Infrastructure, Security, and Cloudflare

Jollybyte Studios™ may use content-delivery, DNS, traffic-management, anti-abuse, and security infrastructure provided by Cloudflare or comparable providers. Such providers may process IP addresses, request information, security signals, and strictly necessary cookie data to route traffic, detect malicious activity, apply challenges, balance load, and protect the website. Technical security information may be retained for periods reasonably necessary to investigate attacks, prevent abuse, maintain reliability, comply with law, and enforce policies. The exact data and retention period may depend on the provider and security event.

7. Cookies and Similar Technologies

Our Cookie Policy explains how cookies and similar technologies may be used on www.Jollybyte-Studios.com, www.womdock.com, and other Jollybyte Studios™ web properties that expressly link to that policy.

If Jollybyte Studios™ deploys optional analytics, preference, or similar non-essential technologies, we will describe them and provide consent or choice mechanisms where required by applicable law.

8. Analytics

We may use limited, privacy-focused analytics to understand aggregate website traffic and performance. Analytics may measure page views, referral information, device categories, approximate geography, or similar metrics depending on the configuration. We do not promise that analytics will always be absent. If our analytics practices materially change, this Policy and the Cookie Policy will be updated as appropriate.

9. How We Disclose Personal Information

We do not sell or rent personal information in exchange for money. We may disclose information to service providers and contractors that perform functions on our behalf, such as hosting, security, content delivery, email, support, payment processing, analytics, licensing, or infrastructure; to professional advisers such as accountants, insurers, or legal counsel; to government authorities or other parties when required by law or reasonably necessary to protect rights, safety, security, or prevent fraud; and in connection with a merger, acquisition, financing, reorganization, sale of assets, or similar business transaction subject to appropriate protections. Service providers are expected to process information for the contracted purpose and protect it appropriately. No security or contractual measure can eliminate all risk.

10. No Sale of Personal Information

Jollybyte Studios™ does not sell personal information for monetary consideration. We also do not use personal information for cross-context behavioral advertising unless we later disclose that practice and provide any choices required by applicable law. Some privacy laws use “sale” or “sharing” as defined legal terms that may differ from ordinary language. If our practices become subject to such requirements, we will provide applicable notices and opt-out mechanisms.

11. Third-Party Services You Choose to Connect

Womdock™ and other Jollybyte Studios™ software may permit you to configure or use third-party accounts, APIs, providers, storage services, applications, or other integrations. These are not owned or controlled by Jollybyte Studios™ unless expressly stated.

12. Local Credentials and Sensitive Authentication Material

Credentials such as API keys and access tokens are sensitive. Where software stores credentials locally, the implementation and level of protection may depend on the platform and software version. We do not make a blanket promise that every credential is stored in an operating-system secure vault unless the applicable product documentation expressly states that this protection is implemented. You are responsible for safeguarding your provider credentials and for revoking or rotating them if you suspect compromise. Credentials should never be intentionally included in support tickets, screenshots, logs, public repositories, or exported content unless specifically necessary and appropriately protected.

13. Data Retention

We retain personal information only for as long as reasonably necessary for the purpose for which it was collected, including providing Services, maintaining transaction or licensing records, resolving disputes, protecting security, enforcing agreements, meeting tax or accounting obligations, and complying with law. Retention periods vary by category. Security logs may be retained for a limited operational period unless needed for investigation. Transaction and legal records may be retained longer where law or legitimate business needs require. Support correspondence may be retained to resolve issues and maintain service history. Information stored solely on your device under your control is retained or deleted according to your actions, software behavior, and local backup practices rather than a Jollybyte Studios™ server-retention schedule.

14. Data Security

We use administrative, technical, and organizational measures designed to protect information appropriate to the nature of the information and the Services. Measures may include access controls, provider security features, encryption in transit where supported, least-privilege practices, logging, monitoring, software updates, and incident-response procedures. No method of transmission or storage is completely secure. We cannot guarantee absolute security, and you are responsible for maintaining reasonable security on your own devices, accounts, credentials, backups, and networks.

15. Data Breach and Security Incident Response

If we identify a security incident involving personal information that we control, we will investigate, contain, remediate, and provide legally required notifications when applicable. Notification timing and content may depend on the facts and governing law. A compromise limited to a third-party provider or your own device may be primarily governed by that provider’s or device owner’s incident-response obligations.

16. International Processing

Jollybyte Studios™ is based in the United States. Website infrastructure and service providers may process information in the United States and other locations where they operate. Data-protection laws may differ across jurisdictions. Where applicable law requires specific safeguards for international transfers, we will use appropriate mechanisms applicable to the processing we control.

17. Your Privacy Rights

Depending on where you live and which laws apply, you may have rights concerning your personal information, such as requesting access, correction, deletion, portability, restriction, objection, or information about categories of information collected and disclosed. Some rights are subject to exceptions, verification, legal retention requirements, and scope limitations. To submit a privacy request, contact info@jollybyte.co and clearly identify the nature of your request. We may need to verify your identity or authority before fulfilling certain requests. You may use an authorized agent where

applicable law permits and required verification is provided. We will not unlawfully discriminate against you for exercising applicable privacy rights.

Privacy requests concerning Womdock™ or www.womdock.com may be submitted through the same legal contact.

18. Marketing Communications

If you opt in to promotional email or similar marketing, you may unsubscribe using the mechanism included in the message or by contacting us. Transactional, security, licensing, legal, or support communications may still be sent when necessary to provide a requested Service or fulfill legal obligations.

19. Do Not Track and Browser Privacy Signals

Browser “Do Not Track” signals are not governed by a single universal technical standard. Where applicable law requires recognition of a legally effective opt-out preference signal, we will implement appropriate handling for processing subject to that requirement. Strictly necessary security and network functions may continue even when optional tracking choices are disabled.

20. Children’s Privacy

Our website and Services are not directed to children under 13, and we do not knowingly collect personal information from children under 13 in circumstances requiring parental consent under applicable law. If you believe a child has provided personal information to us improperly, contact info@jollybyte.co so we can evaluate and take appropriate action.

21. External Links

Our website may contain links to third-party websites. Their privacy practices are governed by their own policies. We are not responsible for how independent websites collect or use information after you leave a Jollybyte Studios™ property.

22. Changes to This Privacy Policy

We may update this Privacy Policy as our Services, providers, or legal obligations change. We will post the revised version with an updated effective or revision date. If a change materially affects how we use previously collected personal information, we will provide additional notice or obtain consent where required by law.

23. Contact Us

Cookies and Similar Technologies on Jollybyte Studios™ Web Properties

Effective Date August 30, 2026

Company Website www.Jollybyte-Studios.com

Womdock™ Website www.womdock.com

Legal Contact info@jollybyte.co

This Cookie Policy explains how Jollybyte Studios™ may use cookies and similar technologies on www.Jollybyte-Studios.com, www.womdock.com, and other Jollybyte Studios™ web properties that expressly link to this Policy. It should be read together with our Privacy Policy.

Womdock™ is a product of Jollybyte Studios™. This revision expressly includes Womdock™, www.womdock.com, and applicable Womdock™ software and services within this policy where stated.

Contents

What Cookies Are • Why We May Use Cookies • Necessary Cookies • Analytics • Preferences • Advertising and Tracking • Cloudflare • Duration • Managing Cookies • Mobile Devices • Third-Party Websites • Changes • Contact

1. What Cookies Are

Cookies are small text files or data elements stored or accessed by a browser or device when you visit a website. Similar technologies can include local storage, pixels, tags, scripts, or other browser-based mechanisms that support website functions, security, preferences, or measurement. Some cookies are set directly by the website you visit (“first-party cookies”). Others may be set or read by service providers that help operate the website (“third-party cookies”).

2. Why Jollybyte Studios™ May Use Cookies

Jollybyte Studios™ may use cookies and similar technologies to operate and secure www.Jollybyte-Studios.com, www.womdock.com, and other web properties that expressly link to this Policy; manage network traffic; distinguish legitimate users from bots or malicious traffic; support load balancing, challenges, or session integrity; remember choices where implemented; understand website performance; and comply with legal or consent requirements.

3. Strictly Necessary Cookies

Strictly necessary cookies are required for core website functions, security, network management, anti-abuse protection, traffic routing, or features you expressly request. Because these technologies are necessary to provide the website securely and reliably, they generally cannot be disabled through an optional cookie preference tool. Our infrastructure provider Cloudflare may set strictly necessary cookies for bot management, security challenges, traffic filtering, and load balancing. Cloudflare cookie names and durations may vary depending on enabled services and security conditions.

4. Analytics and Performance Technologies

Jollybyte Studios™ may use limited analytics or performance technologies to understand aggregate traffic, referral sources, page performance, browser or device categories, and general website reliability. If analytics technologies are not strictly necessary and applicable law requires consent, we will seek consent before activating them for visitors subject to that requirement. The exact analytics provider and configuration, if any, may change over time.

5. Preference and Functional Technologies

If website features later allow saved preferences, localization, consent choices, accessibility preferences, or other remembered settings, cookies or local storage may be used to retain those choices. Functional technologies may be optional unless they are necessary to provide a feature you request.

6. Advertising and Cross-Context Tracking

Jollybyte Studios™ does not currently describe www.Jollybyte-Studios.com or www.womdock.com as using cookies for cross-context behavioral advertising. If we later introduce advertising or materially different tracking practices, we will update this Policy and provide any notice, consent, or opt-out mechanism required by applicable law.

7. Cloudflare and Security Cookies

Cloudflare provides infrastructure that can help protect www.Jollybyte-Studios.com from malicious traffic and improve reliability. Depending on the features in use, Cloudflare may set cookies associated with bot detection, security challenges, or load balancing and may process IP addresses and related request information. Cloudflare characterizes many cookies used for these functions as strictly necessary. Additional information about Cloudflare's processing is available through Cloudflare's own privacy and cookie documentation.

8. Cookie Duration

Cookies may be session cookies, which expire when you close your browser, or persistent cookies, which remain for a defined period or until removed. Duration depends on the purpose and provider. Security cookies may have short lifetimes and may be refreshed when a risk signal or challenge occurs. We do not guarantee that every cookie will have a fixed duration because infrastructure providers may modify cookie behavior as services evolve.

9. Managing Cookies

Most browsers allow you to view, delete, block, or limit cookies through browser settings. Blocking all cookies may affect website security, challenge completion, preferences, or other functionality. Where a cookie consent or preference tool is provided, you may use it to manage categories that are not strictly necessary. Your browser may also offer privacy controls or legally recognized opt-out preference signals.

10. Mobile Devices and Similar Storage

Mobile browsers may provide settings for clearing site data, limiting tracking, or managing cookies. Similar technologies may be stored through browser site data even if they are not technically called cookies.

11. Third-Party Websites

This Cookie Policy applies to www.Jollybyte-Studios.com, www.womdock.com, and other Jollybyte Studios™ web properties that expressly link to it. Independent third-party websites, payment pages, provider dashboards, social platforms, and other external services control their own cookies and tracking practices.

12. Changes to This Cookie Policy

We may update this Cookie Policy when website features, infrastructure providers, analytics practices, or legal requirements change. The revised policy will display an updated effective or revision date.

13. Contact

Acceptable Use Policy

Rules for Responsible Use of Jollybyte Studios™ Services, Including Womdock™

Effective Date August 30, 2026

Company Website www.Jollybyte-Studios.com

Womdock™ Website www.womdock.com

Legal Contact info@jollybyte.co

This Acceptable Use Policy (“AUP”) establishes rules for use of Jollybyte Studios™ websites, Womdock™, software, applications, downloads, network resources, and services. It is designed to protect users, third parties, Jollybyte Studios™, and the security and reliability of our systems.

Womdock™ is a product of Jollybyte Studios™. This revision expressly includes Womdock™, www.womdock.com, and applicable Womdock™ software and services within this policy where stated.

Contents

Scope • Unlawful Use • Security Abuse • Malware • Service Disruption • Automated Access • Fraud and Deception • Harassment • Dangerous Misuse • Intellectual Property • Privacy • Third-Party Providers • Credential Abuse • Enforcement Evasion • Reporting • Enforcement • Changes • Contact

1. Scope and Responsibility

This AUP applies whenever you access or use a Jollybyte Studios™ Service, including Womdock™, or use a Jollybyte Studios™ Service as part of a workflow involving third-party systems. You are responsible for your conduct, content, credentials, configurations, automation, and use of outputs.

2. Unlawful or Rights-Violating Use

You may not use the Services to commit, facilitate, promote, instruct, or conceal unlawful activity; infringe or misappropriate copyright, trademark, trade secret, privacy, publicity, contractual, or other rights; unlawfully obtain, disclose, sell, or distribute personal or confidential information; or evade lawful restrictions, sanctions, court orders, or regulatory obligations. You are responsible for obtaining necessary rights and permissions for content you import, process, generate, modify, publish, or distribute.

3. Security Abuse and Unauthorized Access

You may not probe, scan, exploit, or test vulnerabilities of Jollybyte Studios™ systems, Cloudflare configurations, networks, accounts, software, licensing mechanisms, or infrastructure without explicit written authorization. You may not gain or attempt to gain unauthorized access; bypass authentication or authorization; defeat rate limits or technical restrictions; intercept traffic without authorization; introduce backdoors; exploit vulnerabilities; or interfere with security logging, integrity checks, or anti-abuse controls.

4. Malware and Harmful Code

You may not use the Services to create, deliver, host, distribute, or facilitate malware, ransomware, destructive payloads, credential stealers, botnets, malicious scripts, exploit kits, or code intended to damage, disrupt, surveil, or gain unauthorized control of systems. Legitimate defensive security research or educational material must be conducted lawfully, within authorized environments, and without targeting systems or data you do not have permission to test.

5. Service Disruption and Resource Abuse

You may not intentionally degrade, overload, flood, deny service to, disrupt, or materially impair the Services or related infrastructure. You may not consume excessive resources in a manner designed to evade reasonable limits or disrupt other users. You may not manipulate traffic, requests, or workflows to bypass protective controls or create disproportionate load.

6. Automated Access, Scraping, Bots, and Crawlers

You may not launch or operate robots, spiders, scrapers, offline readers, headless clients, automated request systems, or other automated means against www.jollybyte-studios.com, www.womdock.com, or Jollybyte Studios™ infrastructure in a manner that exceeds reasonable human use, violates technical directives, bypasses access restrictions, degrades service, or collects data without authorization.

7. Spam, Fraud, Deception, and Coordinated Inauthentic Behavior

You may not use the Services to send or facilitate unsolicited bulk communications in violation of law; operate scams, phishing, credential theft, fraudulent transactions, or deceptive schemes; impersonate another person or organization in a manner intended to deceive or cause harm; or coordinate fake accounts, fabricated engagement, or inauthentic behavior designed to mislead platforms, customers, voters, advertisers, or the public. You may not misrepresent the source, sponsorship, endorsement, authenticity, or provenance of content when doing so would be unlawful or materially deceptive.

8. Harassment, Threats, and Exploitation

You may not use the Services to facilitate credible threats, stalking, targeted harassment, doxxing, extortion, exploitation, trafficking, or abuse. You may not create or distribute sexual content involving minors, child sexual abuse material, grooming material, or sexual exploitation of children under any circumstances. You may not create or distribute non-consensual intimate imagery, sexualized material depicting an identifiable person without required consent, or content intended to facilitate sexual exploitation or blackmail.

9. Dangerous and Highly Regulated Misuse

You may not use the Services to facilitate unlawful acquisition, manufacture, trafficking, or deployment of weapons, explosives, controlled substances, or other regulated goods, or to provide operational assistance for violent criminal activity.

Lawful professional, educational, documentary, compliance, or safety-related content may be permitted when used responsibly and within applicable law.

10. Intellectual Property Abuse

You may not remove or falsify copyright, trademark, attribution, licensing, watermark, provenance, or rights-management information in order to misrepresent ownership or facilitate infringement. You may not use Jollybyte Studios™ intellectual property, branding, software, code, documentation, or assets beyond the rights granted by applicable license terms.

11. Privacy and Personal Data

You may not use the Services to unlawfully collect, infer, expose, trade, or misuse personal information; circumvent privacy settings; obtain credentials; or create databases of sensitive personal information without lawful authority and appropriate safeguards. If your workflow processes personal information, you are responsible for determining your legal obligations, including notice, consent, retention, security, and data-subject rights where applicable.

12. Third-Party Providers and Connected Services

When Womdock™ or another Jollybyte Studios™ Service connects to a third-party provider or service at your direction, you must comply with that provider's rules, rate limits, content policies, licensing restrictions, and account terms.

13. Credential and API Abuse

You may not use credentials, API keys, access tokens, accounts, licenses, or payment methods without authorization. You may not sell, share, harvest, or traffic in compromised credentials or use Jollybyte Studios™ software to conceal unauthorized use of a provider account. You are responsible for protecting credentials you configure and for rotating or revoking them if compromised.

14. Attempts to Evade Enforcement

You may not evade or attempt to evade account restrictions, IP blocks, security challenges, rate limits, license controls, abuse-detection systems, or other enforcement measures through alternate accounts, proxies, credential rotation, spoofing, automation, or similar techniques.

15. Reporting Security Issues and Abuse

If you identify a security vulnerability or suspected abuse involving Jollybyte Studios™ infrastructure, contact info@jollybyte.co with sufficient information for us to investigate. Do not publicly expose sensitive details, access data that is not yours, or continue testing beyond what is necessary to demonstrate the issue without authorization. Copyright complaints should follow the DMCA & Copyright Policy. Technical-support issues should be directed to the support address listed below.

16. Enforcement

Jollybyte Studios™ may investigate suspected violations and may warn, rate-limit, block, suspend, restrict, terminate, or refuse access; remove or disable content we control where appropriate; preserve relevant records; cooperate with providers or lawful authorities; and pursue legal remedies. Enforcement decisions may consider severity, intent, history, risk, legal obligations, technical feasibility, and whether the issue can reasonably be cured. We are not obligated to provide advance notice where immediate action is necessary to protect security, prevent harm, preserve evidence, or comply with law.

17. Changes to This AUP

We may update this AUP as threats, Services, infrastructure, or legal requirements evolve. The current version will be posted through www.Jollybyte-Studios.com with an updated effective or revision date.

DMCA & Copyright Policy

Copyright, Trademark, Takedown Requests, and Counter-Notices

Effective Date August 30, 2026

Company Website www.Jollybyte-Studios.com

Womdock™ Website www.womdock.com

Legal Contact info@jollybyte.co

Jollybyte Studios™ respects copyright and other intellectual-property rights. This Policy explains how to submit copyright complaints concerning material accessible through websites or services controlled by Jollybyte Studios™, including Womdock™-related online services where applicable, and how counter-notices may be handled under the Digital Millennium Copyright Act (“DMCA”), 17 U.S.C. § 512.

Womdock™ is a product of Jollybyte Studios™. This revision expressly includes Womdock™, www.womdock.com, and applicable Womdock™ software and services within this policy where stated.

Contents

Scope • Copyright Notices • Required Elements • Where to Send • Processing • Counter-Notification • Restoration • Repeat Infringers • Misrepresentations • Trademark and Other IP Complaints • Designated Agent • Changes • Contact

1. Scope

This policy applies to material that is accessible through a website, service, or system that Jollybyte Studios™ controls, including www.womdock.com and Womdock™-related online services where applicable, and for which Jollybyte Studios™ is capable of removing or disabling access. It does not give Jollybyte Studios™ authority to remove content hosted solely by independent third-party websites, providers, social platforms, or services that we do not control.

2. Good-Faith Copyright Notices

If you believe copyrighted work you own or are authorized to enforce has been infringed through material accessible on a Jollybyte Studios™ controlled service, you may submit a written notice. The DMCA imposes specific requirements for an effective notification. Before submitting a notice, consider whether the use may be authorized by the copyright owner, licensed, in the public domain, or protected by an exception such as fair use. Misrepresentations in a DMCA notice may result in liability under applicable law.

3. Required Elements of a DMCA Takedown Notice

A copyright notice should include substantially all of the following: (a) a physical or electronic signature of a person authorized to act on behalf of the owner of an exclusive right allegedly infringed; (b) identification of the copyrighted work claimed to be infringed, or a representative list if multiple works at one online location are covered; (c) identification of the material claimed to be infringing or the subject of infringing activity and information reasonably sufficient to permit us to locate it; (d) information reasonably sufficient to contact the complaining party, such as name, mailing address, telephone number, and email address; (e) a statement that the complaining party has a good-faith belief that the disputed use is not authorized by the copyright owner, its agent, or the law; and (f) a statement, under penalty of perjury, that the information in the notice is accurate and that the complaining party is authorized to act on behalf of the owner of the exclusive right allegedly infringed. Please identify the exact URL, page, file, listing, or other location where the material appears whenever possible. Vague notices may delay our ability to evaluate or locate material.

4. Where to Send a Copyright Notice

Copyright notices and inquiries may be sent electronically to: info@jollybyte.co. For purposes of any DMCA safe-harbor designation, Jollybyte Studios™ will maintain any additional designated-agent contact information required by law in the location required by applicable law and in the U.S. Copyright Office Designated Agent Directory if and when such designation is maintained. Submitting a notice to the email address above does not itself establish that Jollybyte Studios™

qualifies for any particular DMCA safe harbor; statutory eligibility depends on compliance with all applicable requirements.

5. Processing of Notices

Upon receipt of a sufficiently complete notice concerning material we control, we may review the notice, request clarification, remove or disable access to the identified material, notify the person who provided or posted the material, preserve relevant records, and take other steps appropriate under the DMCA, our Terms, or applicable law. We may forward a copy of the notice, including the complainant's contact information, to the affected user or uploader where necessary to administer the process or as otherwise permitted by law. Consider using appropriate business contact information if privacy is a concern.

6. Counter-Notification

If material you provided was removed or disabled as a result of a DMCA notice and you believe the removal or disabling resulted from mistake or misidentification, you may submit a counter-notification where the DMCA applies. A counter-notification should include substantially the following: (a) your physical or electronic signature; (b) identification of the material removed or disabled and the location where it appeared before removal or disabling; (c) a statement under penalty of perjury that you have a good-faith belief the material was removed or disabled as a result of mistake or misidentification; and (d) your name, address, and telephone number, together with the jurisdiction and service-of-process consent statements required by 17 U.S.C. § 512(g). Counter-notifications may be sent to info@jollybyte.co. Because statutory wording matters, you should review 17 U.S.C. § 512(g) or consult qualified legal counsel before submitting a counter-notice.

7. Restoration Following a Counter-Notice

Where the DMCA applies and a valid counter-notification is received, we may forward it to the original complaining party and may restore the material after the statutory waiting period unless we receive notice that the complaining party has filed an action seeking a court order to restrain the allegedly infringing activity. Under 17 U.S.C. § 512(g), restoration may occur not less than 10 and not more than 14 business days after receipt of a qualifying counter-notice, subject to the statutory conditions.

8. Repeat Infringers

Where required for an applicable DMCA safe harbor, Jollybyte Studios™ may adopt and reasonably implement a policy for terminating, in appropriate circumstances, users or account holders who are repeat copyright infringers. We may also restrict or terminate access for serious or repeated intellectual-property violations under our Terms of Service and Acceptable Use Policy even when the DMCA safe-harbor framework does not apply.

9. Misrepresentations and Abuse of the Process

Knowingly materially misrepresenting that material is infringing or that material was removed by mistake may expose the submitting party to damages, costs, or attorneys' fees under 17 U.S.C. § 512(f) or other law. Do not use the DMCA process to suppress criticism, competition, non-infringing material, lawful fair use, or content outside the scope of copyright.

10. Trademark and Other Intellectual-Property Complaints

The DMCA is a copyright statute and does not establish a takedown procedure for every type of intellectual-property dispute. Trademark, trade-secret, right-of-publicity, impersonation, or other rights complaints may be submitted to the legal contact below with enough information for us to evaluate the issue. We may request supporting documentation or direct you to another appropriate process.

Complaints concerning alleged unauthorized use of the Womdock™ name, branding, logos, product identity, or other Jollybyte Studios™ marks should be directed to the legal contact below and clearly identify the challenged use.

11. Designated Agent Compliance Note

A service provider seeking certain DMCA safe-harbor protections under 17 U.S.C. § 512(c) must satisfy statutory requirements that can include publicly posting designated-agent information and registering and maintaining that agent with the U.S. Copyright Office. Required agent information can include the service provider and agent name, mailing address, telephone number, and email address. This policy should not be interpreted as a representation that every

Jollybyte Studios™ activity is eligible for a Section 512 safe harbor. Eligibility depends on the nature of the service and compliance with applicable statutory requirements.

12. Changes to This Policy

We may update this policy to reflect changes in our Services, contact information, or applicable law. The current version will be posted through www.Jollybyte-Studios.com with an updated effective or revision date.
